Dear Tony and Sandra:

I want to thank you both so much for the truly amazing job you did for my family. For me, the kitchen countertops are the crown jewel of the house. Everyone that visits marvels at them. Sandra, thank you for helping us pick the perfect color. Tony, you and your team are true craftsman. The adjustments you suggested to the design of the island are exactly what we envisioned.

My wife's favorite detail in the house is her fireplace. The marble surround looks highlights the mantel beautifully. We have friends over each week for a Bible study. The view of that fireplace is considered premium seating! It really creates a warm and inviting atmosphere to our great room.

We also wanted you to know how much we appreciated the timeliness of your work and the excellent customer service we received, right down to the contentious helpers who would carefully wipe their feet each time entering the house after walking through my lovely dirt driveway :)

As a Real Estate Broker who deals with a lot of contractors I have high expectations. Your team truly surpassed them all. Thanks for a job well done! You have earned my referrals to all of my clients and friends.

Blessings,

Phil and Marianne Alba
